Solano Resource Conservation District Volunteer Opportunities in Vacaville

Most of the planting has been done for our Urban Greening project along Alamo Creek in Vacaville, but I could use help from a few volunteers for some replanting and wrap-up. I’d like to work with up to four volunteers on each of the dates below. We’ll meet at a central location, and then all hop in my SRCD truck to drive around to the different sites. Please RSVP if you are interested in participating on any of the following dates:

- **Tuesday, April 15, 9:00 – 1:00**
- **Thursday, April 24, 9:00 – 1:00**
- **Tuesday, April 29, 9:00 – 1:00**

**Native Plant Sale**  I want to remind you all that Solano RCD holds a native plant sale every spring. We’ll have all kinds of wonderful water-wise plants available at our plant sale on Saturday, May 3, from 8:00-12:00 at our Conservation Education Center located at 6390 Lewis Road. During the plant sale we’ll be holding a workshop from 10:00 – 11:00 on how to replace your water-thirsty lawn with either native grasses or native shrubs. Information will also be available on the lawn replacement rebate program run by Solano County Water Agency.

I hope you are all having a wonderful spring,

-Katherine
