Volunteer Work Day at Native Plant Nursery
Monday, July 4, 2016, 10am to Noon?

A member donated a portable carport that will be reassembled at the nursery to provide more shade for the increased number of seedlings and saplings we are growing. It may take longer than two hours. Please meet at the Vallejo Sanitation and Flood Control District gate at 47 Solano Avenue, Vallejo, CA. Call 925-525-5527 if you arrive after 10 and we will open the gate.

Please RSVP to contact@jepson.cnps.org because we need to provide your name to Val San (our nursery is in a secured area). No prior experience needed. Bring gloves if you have them. Tools, instructions and snacks provided.
