Volunteer Work Day at Native Plant Nursery
Saturday, July 15, 2017, 10am to Noon.

Meet at the VALSAN gate (although they're now Vallejo Flood and Wastewater District so we need a new acronym) at 47 Solano Avenue, Vallejo, CA. Call 925-525-5527 if you arrive after 10 and we will open the gate.

The plant inventory is growing so tasks include stepping up plants, weeding, fixing shade cloth, etc. If enough volunteers show-up, we can paint the storage shed which is beginning to rust (it is five years old).

The nursery is located within the District’s corporation yard, which is a secured area. New rules have been instituted that require all personnel and guests to wear closed-toed shoes and hardhats. We have hardhats.

Please RSVP to contact@jepson.cnps.org because we need to provide your name to VALSAN. No prior experience needed. Bring gloves if you have them. Tools, instructions and snacks provided.
